

I have read the declaration of authenticity required by the BME GTK and detailed in this application, and by completing the application I declare that I accept the contents thereof as binding on me.

DECLARATION OF AUTHENTICITY

By signing this declaration, I declare that I am aware of my civil, criminal and disciplinary liability and that my doctoral thesis, prepared as a student of the Doctoral School in Business and Management at the Faculty of Economics and Social Sciences of Budapest University of Technology and Economics, is **my own independent intellectual work** and that the printed and electronic literature referred to in it has been used in accordance with the general rules of copyright law.

I reviewed the contents generated by AI (artificial intelligence), checked the accuracy and veracity of the generated outputs, and appropriately indicated all uses of AI in my thesis.

I understand that in the case of a doctoral theses in particular, it is considered plagiarism:

- to quote verbatim or paraphrase without citing the reference;
- presenting the thoughts of others as one's own.

By accepting this declaration, I further declare that I am aware of the concept of plagiarism and understand that in case of plagiarism my doctoral thesis will be rejected and in such a case the aforementioned proceedings may be initiated against me.

Dated: Budapest,
